PROFILE

Deiziane is a Frontend Developer currently living in Minas Gerais, Brazil. Her main focus in technology is build frontend accessible and responsible applications. Has a keen interest in learning new technologies, given it is useful to build value and expand her knowledge.

WORK EXPERIENCE

Sanar (Apr 2021 - Present)

As a frontend developer, worked on creating the initital setup of the project, defining patterns, architecture, unit and E2E tests strategy. Responsible for the development of web applications using React and Typescript based on responsive design and accessibility. Also worked on creating a component library using styled-components and Material UI.

ThoughtWorks (Jan 2020 - Apr 2021)

As a graduate developer, Deiziane participated during four weeks of intense agile training in India, working with a team under the guidance of experienced ThoughtWorks developers and Business Analysts. During this time, Deiziane worked with a diverse team with people from many different countries, acquired knowledge and practiced several agile methodologies and techniques. Among others, she learned agility concepts, consultant skills and best development practices like Pairing, TDD, Refactoring, Continuous Integration and Continuous Delivery (CI & CD).

EDUCATION

B.S. in Computer Science (Aug. 2015- Nov 2020)

Universidade Federal de Minas Gerais (UFMG)

Informatics Technician (Mar 2013 - Nov 2014)

Escola Politécnica de Minas Gerais (POLIMIG)
